- SEO
- Accessibility

### CSS/SCSS

- CSS
- Flexbox
- Grid
- Tailwind
- Animations
- Bootstrap

### JavaScript

- TypeScript
- ES6
- React js
- Next js
- Styled Components

## PERSONAL INFORMATION

I am a pixel-perfect Frontend Developer. I write well-scalable, testable, reusable code using the best software development practices. I believe my superpower is translating UI/UX designs to actual code quickly, with responsive, user-friendly results. I possess over 2 years ↗ of hands-on experience as a Frontend Developer of efficiently coding websites and web applications using modern technologies. Keen eyes for good design, user experience, and good work ethic. Excellent in teamwork via collaborations with back-end developers and designers. Outstanding Problem-solving skills with the ability to use analytical and creative thinking in debugging and finding solutions. I write React.js conveniently.
